Subject: Response to December 3, 2013, Notice of Activity – Bingham Canyon Mine; Kennecott Utah Copper (KUC); Bingham Canyon Mine; M/035/0002; Salt Lake County, Utah

Dear Mr. Payne:

The Division of Oil, Gas and Mining received via email, your Notice of Activity on December 5, 2013, for the new proposed portal, underground decline and cross cut construction. The amendment includes a figure and a letter summarizing the proposed construction. Please correct the following items:

1. Figure 1 – The scale bar doesn't match grid scale. Please correct the scale bar.
2. Figure 1 – The legend is incorrect. The black line is labeled as a current portal, but it should be labeled as "current underground working."
3. Figure 1 – The legend is incorrect. The double red line is labeled as a proposed portal, but it should be labeled as "proposed underground working."
4. Figure 1 – Add the proposed portal location on the map, either label on the map or add a symbol to the legend.
5. The small insert map is illegible. Please enlarge enough so it is readable.

The Division suggests that you add relevant notes from the correspondence to the figure as notes to avoid changing text of the Notice of Intention. If you have questions about this letter, please contact the project lead, Leslie Heppler, at 801-538-5257. Thank you for keeping the plan current.

Sincerely,

Paul B. Baker
Minerals Program Manager
